**electric COOKING  
KEEPS  
KITCHENS  
COOL**

This is the time of the year when home-keepers, using old fashioned stoves, begin thinking of ways and means of serving the family salads and other cold dishes, to keep from cooking in a hot, uncomfortable kitchen. Women who use an automatic electric range never have that problem, because electric cooking keeps kitchens cool.

Walk into any kitchen where a modern electric range oven is being used and unless you're told, you'll never know it's on, because perfect insulation keeps the heat where it belongs.

Use the oven as much as possible during these hot days—you can cook a complete meal in its roomy interior. And you don't have to stand guard. Automatic controls will start the oven and then shut it off when your meal is done to perfection... and your kitchen remains cool and comfortable.

Stop in at your dealer's store today and see the wonderful selection of automatic electric ranges. There's a style and size to fit every family budget. Keep cool and live better with electricity.
