★ Here is a home lovely to look at, easy to live in and economical to build... a combination not often found in small homes. Yet the designer of this home has accomplished it to a marked degree.

★ Note the windows of the living room extension and matching design of the door. There is unusual home beauty.

★ Next, scan the floor plan. See how the use of an entry and the connecting hall gives special privacy in either living or sleeping quarters.

★ And, to top it off, take a good look at the overall dimensions designed for economy in construction.

★ This is another example of why homes of beauty, convenience and economy are easy to get at—
