Monarch's "Deep-Heat" Cooker

is DIFFERENT because it has

IMAGINE yourself sitting INSIDE a circle of hot radiators! You'd soon feel pretty well "cooked." But if you sat DOWN on a radiator, the application of heat would be decidedly concentrated. The same principle applies to Monarch's exclusive side heat cooker. Monarch's side heat actually "wraps" the heat around the food — speeds cooking — tenderizes more thoroughly — and bakes rather than stews. No need to stir — foods do not stick to bottom!

HERE are three dishes you can prepare better and more economically with "Side-Heat," on MONARCH'S Electric Range Model FS6P.
