- ★ Not so with this house. Here the designer has achieved an air of Western living while, at the same time, providing a compact arrangement of rooms.
- ★ Desirable features are the living room which extends from front to back through the center of the house, a sizable separate dining room and the porch at the rear—easily accessible from kitchen—to take advantage of the Western habit of outdoor living.

'Old-timer' has a special meaning at Standard

They say you're not really an "old-timer" at Standard until you've been on the job at least 20 years...and at 30 years, there's a special company award: a gold watch and six weeks' vacation with pay.

The average length of service of all our 17,890 parent company employees is slightly more than 11 years. And the 20-year "old-timers"? Fully 4,856 are working with us today.

That's appreciation of a man's service to his company, of course, but it also illustrates a principle we believe in for all employees—good people in good jobs serve you best, and we do everything we can to make jobs at Standard good.

Security, good pay and working conditions, advancement from within, free insurance, annuities at retirement are all part of making that principle a reality.
