The Down Payment Is All a Home Really Costs

★ Particularly suitable for this western country is the home shown above. Window treatment and the use of shakes give it a distinctive appearance.

★ Interior arrangement, too, lends itself to pleasant living. All rooms have sufficient window area to give them a cheery, bright atmosphere. Sound designing has placed bedrooms and bath so as to give much-desired privacy. The relatively large living room, with plenty of free wall space, allows for easy placement of furniture.

★ And, with all its desirable features, this home can be constructed for minimum cost. The rectangular shape and simple roof, without hips or dormers, are just two of the means used by the designer to effect important economies.
