New Type Spreader Hitch Saves Muscles

Grandma's old-fashioned hooks 'n' eyes down the side of her dress provided gentle pressure to keep hips and waist from spreading where they shouldn't—and generally, it was a "one-man" job. This same dependable method of hooking and unhooking also performs a time, work and muscle-saving service for the revolutionary new Ferguson Manure Spreader and Loader just announced by the local Ferguson Dealer. A similar hook 'n' eye device hitches and unhitches the Spreader hydraulically by means of the Finger Tip Control of the Ferguson Tractor. The same control also hydraulically operates the Loader. One man with one tractor can do the entire loading and spreading job without leaving the tractor seat.

P is for power
Q is for quality

Here is get-up-and-go which you'll find in no other low-cost car. For the '50 Ford alone offers you a 100-horsepower V-8 engine. It's the same type engine you find in America's costliest cars, yet this Ford V-8 sells for hundreds less than most "sixes." It's a quiet engine, too—designed to deliver its power in a well-mannered whisper.

Now you can even hear '50 Ford's quality in its new "sound conditioning" and 13-way stronger "Life-guard" Body. And the '50 Ford has a quality car "feel" too... its low level "Mid Ship" Ride... 35% easier-acting King-Size Brakes... the effortless "Finger-Tip" Steering make it the one fine car in its field.

There's a future with a future built in!
*Overdrive optional at extra cost.

If you mind your P's and Q's you'll order a **'50 FORD**

"TEST DRIVE" THE '50 FORD AT YOUR FORD DEALER'S—It will open your eyes!
The only car in its field with **AUTOMATIC OVERDRIVE***

The National Foundation for Infantile Paralysis
FRANKLIN D. ROOSEVELT, founder

The 1950 March of Dimes campaign must hit a new high, if the nation is to undo the ravages of the blackest toll of infantile paralysis in its history.

The year 1949 was the most severe in the 12-year history of the National Foundation for Infantile Paralysis. With more than 40,000 persons stricken, epidemic aid funds of the national foundation were virtually depleted, and it was necessary to conduct an emergency drive for the first time in the organization's history.

Fight with your dollars by sending your contributions to the

in folders sent through the mails to local residents for that purpose. If you did not receive such a folder place your contribution in one of the containers located in the business houses in town.
