STOP FOR SCHOOL BUSES!

Confused about Oregon's new school bus stopping law? This is the way it works. On a two lane roadway, you must stop when meeting or overtaking a school bus which has halted to load or unload children. On roadways having three or more lanes, you must stop only if you're traveling in the same direction. After having stopped, you must not proceed as long as any children are leaving the bus or crossing the roadway. To assist in holding traffic while children cross the road, all buses are being equipped with red stop signal arms as rapidly as possible. You must stop for the bus whether or not the stop arm is displayed. Use of this signal by the bus driver simply indicates the situation requires you to remain stopped. The law applies equally to city streets and rural roads and highways.

ed material on 'Home Furnishing'. February 7, 14, and 21 are the dates set for the making of cotton dresses. Stanley Reffett, who has been working at a logging camp in the Willamette valley, spent two days last week at the home of his parents.
