At a Chicago meeting Dr. D. L. Wilbur of Stanford U. said that old tired feeling is a major American affliction... caused by overwork, too much tension and inadequate rest. We're wound up like a kid's Christmas toy. We worry about everything and anything... and if we haven't anything to worry about we worry over what can happen in the future. We're like the pessimist who had the choice of the lesser of two evils... and took them both. What we ought to do occasionally is add up all the benefits we have and enjoy. We can take almost anything life hands us... if we'll only take it easy.

A touring Detroit man drove away from a service station and didn't realize he had left his wife behind till he was 30 miles away. We trust he was man enough to go back for her. It's here! The brand new 1950 FORD. And it's 50 ways new. The one fine car in the low price field. See it... and try it. Once you do you'll know why FORD is the car to buy. HERRIMAN MOTOR CO. Phone: 77.
