**"Your Preferred Risk Plan Makes Good Sense!"**

**THE GENERAL** is a select company for owners of select properties. In addition to careful choice of risks, the GENERAL also inspects the properties it insures in order to help owners reduce fire hazard to an absolute minimum. **THE GENERAL** is a strong capital stock company, rated highest possible by national insurance rating authorities.

"Some buildings are bad fire insurance risks. Most good modern buildings are bound to have fewer fires. That's what I like about the GENERAL 'preferred risk' plan. It recognizes this fact. It hasn't made the owner of good properties pay for the fires that much more frequently occur in bad structures. That is how the GENERAL has, through the years, saved 15% and more on fire insurance costs for preferred risk property owners."
