EVERYTHING FOR YOUR HOME

Custom-Craft draperies to provide Nyssa with a service that has heretofore been unavailable.

The company has secured a large assortment of fabrics and sample draperies to choose from.

The draperies, made by expert craftsmen, can be bought lined or unlined and made to fit a window. Representatives of the Intermountain Furniture company measure the windows, explain the amount of draperies needed and furnish samples so the customer can correlate the colors. The company then air mails the order to the factory.

The draperies are shipped from the factory within 24 hours of receipt of the order, except in the case of special sizes, and even then fast service is given by the manufacturers. (Paid Adv.)

New Plastishade Is Revolutionary

Breneman's plastishade, handled by the Intermountain Furniture company, is the revolutionary all-plastic window shade that surpasses all other shades regardless of price.

The plastishade is tough, completely waterproof and stain proof and flammproof. For all practical purposes it is indestructible and gives the highest quality at a moderate price. Plastishade is a heavy, full-bodied six-gauge Vinylite brand plastic, which has been specially developed for window shade use. It has no filling to break or fall out, will not tear or puncture, has sun-fast and washfast colors, is mildew proof and its performance is not affected by heat or cold.

The translucency of plastishade allows adequate darkening to protect furnishings from fading, but at the same time, leaves a very pleasant glow in the room.

Plastishade, the first basic change in quality window shades in more than a century, combines all the features that are paramount in giving the consumer the first trouble-free window covering. (Paid Adv.)

Mattress Made For Local Firm

A new mattress, made especially for the firm, has been developed by the Intermountain Furniture company.

The mattress is an inner-spring product, consisting of the famous Karr unit, which features the reverse coils and helical assembly. All coils are joined together with helical and held in place by "camel's humps" to assure complete flexibility.

The gorgeous fabrics and woven stripe tickings, all of highest possible quality and durability, give the Intermountain mattress and box springs a distinctive appearance, of which anyone can well be proud.

No other make of mattress and box spring features any finer tailoring than does Intermountain. Throughout the line customer's find the very finest possible tailoring and craftsmanship and the very best materials obtainable.

The inner-spring sleep unit is first covered with a tough, durable material of a quality that will prevent the upholstery from sagging into the spring coils, to assure added years of service at this critical point.

The flush-type grips of cord are threaded through metal grommets and steel-backed for extra strength and longer life.

For long wear and maintenance of mattress shape and beauty, the borders are pre-built, with vents scientifically located to permit constant "breathing" and keep mattress fresh and clean inside. (Paid Adv.)

Franchise Given Nyssa Firm By Famous Concern

Story About World's Largest Furniture Manufacturer Told

The Intermountain Furniture Company has just received a large shipment of the famous Kroehler living room furniture, including several two-piece living room suites in a variety of styles and colors and also sofa beds.

The Intermountain Furniture company has been awarded an exclusive franchise in Nyssa by the Kroehler Manufacturing company, the world's largest furniture manufacturer.

Kroehler furniture is largely the handwork of the thousands of skilled craftsmen working in the nine big Kroehler factories. Craftsmen who have spent years with the Kroehler Manufacturing company have passed their knowledge on to their sons and daughters who now turn their skill to the making of fine Kroehler furniture. The expert hands of father and son and mother and daughter operate the finest high speed precision machines to build Kroehler's famous "cushionized" furniture.

The workers make the foundations with life-time sturdiness, build the steel web seat platforms, fill the cushions with buoyant spring units and soft fluffy cotton, assemble the resilient double deck back springs and tailor the lovely covering fabrics.

The result is Kroehler "cushionized" furniture, the most comfortable and durable furniture the world has ever known, the world's greatest furniture value.

In the new furniture, Kroehler gives more springs and more comfort than ever before. Two complete sets of springs in the back and two complete sets of springs in the seat work independently yet in complete harmony in the "cushionized" furniture.

"Thrill to this triumph of scientific war-time research", said Hamilton Chadderton, manager of the Intermountain Furniture company. "Enjoy 'cushionized' comfort just once and you'll never be content to own anything but Kroehler furniture." (Paid Adv.)

Norge Gives Aid To Housekeepers

The Norge company has solved problems of refrigeration and baking with their new exclusive self-defroster system and new blended-heat oven.

All the mess and bother of defrosting are gone forever. The new Norge does the job itself. The Norge Self-D-Defroster saves work, time and money and is the only defroster system that defrosts automatically, without fail, every 24 hours.

Self-D-Defroster is only one of the many wonderful features packed into the sleek beauty of the Norge Golden 50. You can see this gold-colored metal trim at the Intermountain Furniture company store at second street and Bower avenue.

The blended-heat oven perfected by Norge banishes baking failures once and for all. Two heating elements, top and bottom, blend their heat to make one perfect cooking temperature.

This is only one of the wonderful features of the new fully-automatic Norge electric range. It is "America's best cook". It may also be seen at the store. (Paid Adv.)

No Waste Space in this BIG, NEW NORGE
