Co-operation Difficult

An indication of the difficulty that will be found in establishment of a European federation or even an economic agreement among the nations of Europe is emphasized by the refusal of the labor government of Britain to participate in the so-called Schumann plan to integrate the coal and iron resources of the continent.

However, Prime Minister Attlee protested that his government wished to help and not hinder operation of the plan, but soft-pedaled his proffered co-operation with the declaration that it would be impossible to effect agreement on such a plan unless the European countries adopted the socialist idea of economic planning—government controls over enterprise.

The conglomeration of ideologies woven and interwoven through the governments and people of Europe foreshadows a long struggle before a European system that resembles anything like a peaceful and orderly life can be established. However, the interest shown by some of the governments in the Schumann plan gives hope that leaders are sincerely desirous of developing an economic co-operative program, which may eventually lead to political co-operation.

The main difficulty is that the socialist system is not only a political program, but it is an economic scheme, and the socialist and democratic ideologies are so much at variance, thorough co-operation is almost impossible. However, even limited economic co-operation may show leaders that political agreement can also be achieved.

Any sincere, constructive agreement will undoubtedly bring the European nations closer together politically and economically.

Olsen Receiving Scholastic Honor

Dr. John William Olsen, who will start the practice of dentistry in Nyssa in the fall, will receive a degree of doctor of dental medicine at the commencement of the University of Oregon Dental school in Portland Friday, June 16.

uation, Olsen has made the outstanding scholastic record in his class at the dental school. He was awarded the Alpha Omega plaque and a Mosby Publishing company award and was named to membership in the profession's national scholastic honorary, Omicron Kappa Upsilon.

Dr. Olsen is a son-in-law of Mr. and Mrs. Charles Garrison of Nyssa.

Organ Benefit Very Successful

The attendance of hundreds of Malheur county residents at the benefit concert sponsored by the Nyssa Stake Relief society in the beautiful new Nyssa stake chapel and recreation hall last Friday night assured the relief society of sufficient funds with which to purchase the electric organ for which the program was given.

Mrs. Fred Chytraus of Ontario, representing the Relief society stake presidency, delivered the address of welcome and thanked those who helped with the program.

Arvel L. Child of Nyssa, president of the Nyssa stake, said "On this inspiring occasion I am happy to welcome you here this evening, especially those not of our faith, on behalf of the stake presidency and the bishop of the ward. We wish to thank you for the support you have given the relief society in this noble undertaking. I understand from what Mrs. Chytraus said that the society has reached its goal.

"The structure is not completed, so we cannot invite you to inspect the remainder of the building, which will probably be dedicated the last of this month. All of you are invited to attend that service."

The prelude was played on the new organ by Mrs. D. A. Erickson and the invocation was given by Fred Blacker. The stake singing mothers, who marched to the chapel to the accompaniment of organ music, sang three songs, "Lift Thine Eyes," "Waiting You" and "The Years At the Spring". The members of the choral group, dressed in evening gowns, were directed by Mrs. Robert Gilchrist and were accompanied by Mrs. Erickson at the organ and Miss Mary Lou Schenk at the piano.

Mrs. Loren Basler, noted Boise organist, played three numbers on the new instrument, "Am Meer," "Impromptu in D Major" and "Echoes of Spring."

Other numbers on the program were as follows: "Play Gypsies, Dance Gypsies," violin trio, Angela Peterson, Laura Schenk and Nani Child, accompanied by Mary Lou Schenk; "Song of Songs" and "Until," vocal solos by Rulon Huntington, tenor, accompanied by Ruth Kirk; two songs, "When Day Is Done" and "Your Land And My Land," male quartet, Hugh Tobler, Charles Taylor, Charles Peterson and Blaine Holladay, accompanied by Claire Gilchrist; "Vissi d'Arte" from "Tosca," and "Knowest Not Thou Fair Land?," Dorothy Gilchrist, soprano, accompanied by Claire Gilchrist; "This" and "Romance" from "Second Violin Concerto," Lynn Lawrence, violinist, accompanied by Mrs. Carlos Buchner; "Dawn," "I'll Walk Beside You" and "My Own America," singing mothers; postlude, and benediction by Milton Nelson.

Social Notes

FRANK PIKE HONORED ON BIRTHDAY

Frank J. Pike was honored guest at a surprise party given Monday evening at the home of Mr. and Mrs. D. O. Bybee, in celebration of his 24th birthday. Those winning prizes for "brain testers" were Mrs. Leroy Flitton and Mrs. Arthella Buetler, and Eugene Stoker. A white birthday cake trimmed with large pink rosebuds, was the center of the dining table. A low blue vase, of pink rosebuds and white daisies, made an attractive centerpiece for the blonde buffet. Favors were white miniature sail boats, with an individual fortune on each. A comic history of Mr. Pike was written by the group. Lunch was served to 26. Out-of-town guests were Mr. and Mrs. Jesse Buetler and Mr. and Mrs. LeRoy Flitton of Meridian.

HOLLAND FOLKS DINE

Mr. and Mrs. Hermon Folkerts and daughter, Margaret and their friend, Mr. Gilbert, of Stockton, California, were dinner guests at the D. O. Bybee home Sunday. Places were laid for 14 guests, including Mr. and Mrs. Pike and two daughters of Adrian.

Allotments For Wheat Announced

Wheat acreage allotments will be in effect for the 1951 wheat crop, according to word received from the department of agriculture at Washington, D. C. by Glen L. Hutchinson, county PMA chairman. The legislation under which wheat acreage allotments are established requires that they be proclaimed each year by the secretary of agriculture unless a national emergency exists.

The chairman explained that each year the national allotment is based on the estimated needs for the coming year after making allowance for the supply of wheat on hand July 1.

Farmers on land on which no wheat was seeded for any of the years 1948, 1949, or 1950, may apply for a 1951 wheat acreage allotment, according to Hutchinson. To be considered for an allotment on a new farm the farmer must apply in writing to the county PMA committee, city hall, Ontario, Oregon by July 1.

The application must contain evidence that the land for which an allotment is requested is suitable for the production of wheat and that the operator will be largely dependent for his livelihood on his farming.

Nyssa Juniors Win Over Adrian Team By 4 To 3 Score

The Nyssa American Legion junior baseball team forced the Adrian boys into an extra inning to win by a score of 4 to 3 on the Nyssa field Tuesday night.

Adrian scored all three of its runs in the first frame on two errors and two hits. Nyssa scored two runs in the third and one in the sixth to tie the count and M. Marcum crossed the plate for the fourth Nyssa tally in the eighth frame.

Newbill of Adrian allowed four hits and Duncan and Marcum, pitching for Nyssa, allowed only three hits. Phil Wilson of Nyssa drove out two triples.

The juniors will play Burns here Sunday afternoon at 2:30, according to Robert Talbot, Jr., manager of the Nyssa squad.

Idaho Power Co. Plans Institute

An institute for irrigators will be held June 28 at Payette under the sponsorship of the Idaho Power company.

"Farmers of this area are invited to attend what we believe will be an interesting and informative program for irrigators, commencing at 9:30 a. m. at the Gay Way corner," Bernard Frost, Idaho Power's district manager here, said.

The most efficient use of electric pumps and sprinklers will be discussed and demonstrated by specialists. Idaho Power will serve a lunch to those attending and show a motion picture, "Water, Fountain of Life."

County agents, manufacturers and distributors of irrigation equipment and the extension services of the University of Idaho and Oregon State college will participate in the institute.

Speakers will include Robert Glazebrook, chief engineer hydraulics division, Fairbanks-Morse company, Chicago; Arthur King, Oregon State college extension department, Corvallis; Ralph E. Brooke, U. S. National bank, Ontario, Oregon; and Max C. Jensen, associate professor and irrigationist, University of Idaho, Moscow.

Mr. Frost said that several hundred farmers from western Idaho and eastern Oregon are expected at the institute.

Program And Lunch Arranged By Firm

(Continued from Page 1) is the No. 1 cash crop in this county. Approximately one-third of the

farmers grow sugar beets, with an average of 25 acres for each of the 860 farmers.

The county agent said sugar beets is the No. 1 crop because farmers average 21.6 tons per acre for a gross return of approximately \$276 per acre. Malheur is a livestock county and income from livestock and livestock by-products is greater than in any other county in the state. Beets and livestock are a good combination. The farmers have beet tops for feed, wet pulp, dried beet pulp and molasses.

"The third reason is found in what beets do to the stability of our agriculture," Sandquist said. "It is not as hazardous as some other crops; it is pretty stable. The company employs about 300 persons during the campaign. The late R. G. Larson, who was district manager of the sugar company and prior to that was county agent of Malheur county, said years before the factory was established that the area needed a good cash crop, and he was instrumental in getting the factory located here."

Jered Lewis, district manager of the Amalgamated Sugar company, told the Grangers "We hope you have enjoyed yourselves and feel that the afternoon has been well spent. You have just gone through

the most modern and efficient beet sugar plant in the United States".

Referring to "the best row crop area in America", Mr. Lewis paid tribute to the farmers who make operations of the company possible.

For their help in making the visit of the Grangers to the factory a success, Mr. Lewis thanked the following persons and organizations: James Leslie and Harold Henigson of the Nyssa chamber of commerce; Henry Hartley, school superintendent; the Nyssa school board, Howard Hatch of Adrian, the Adrian school board, the Ontario chamber of commerce, Hamilton Chadderon and the Nyssa municipal band, Reed Ray, Dr. Sarazin, Mr. Tiegs, Mr. Sandquist and their wives. He especially thanked the women of the L. D. S. first ward who prepared the box lunches.

"We hope you can come back when we are making sugar", Mr. Lewis told the Grangers. "You and your friends are invited to drop in to see us at any time."

Ben Buisman, editor of the Oregon Grange bulletin, on behalf of the Grange, thanked the Amalgamated Sugar company officials for their kindness and hospitality, adding that "Jed Lewis did a wonderful job feeding us and providing entertainment".

We say FREEZING is the modern way to preserve

it's easier! it's cooler! it's quicker!

NO hot-water baths!

NO arduous boiling for hours!

NO scalding of jars, rubbers and lids!

NO cooling jars to watch and turn!

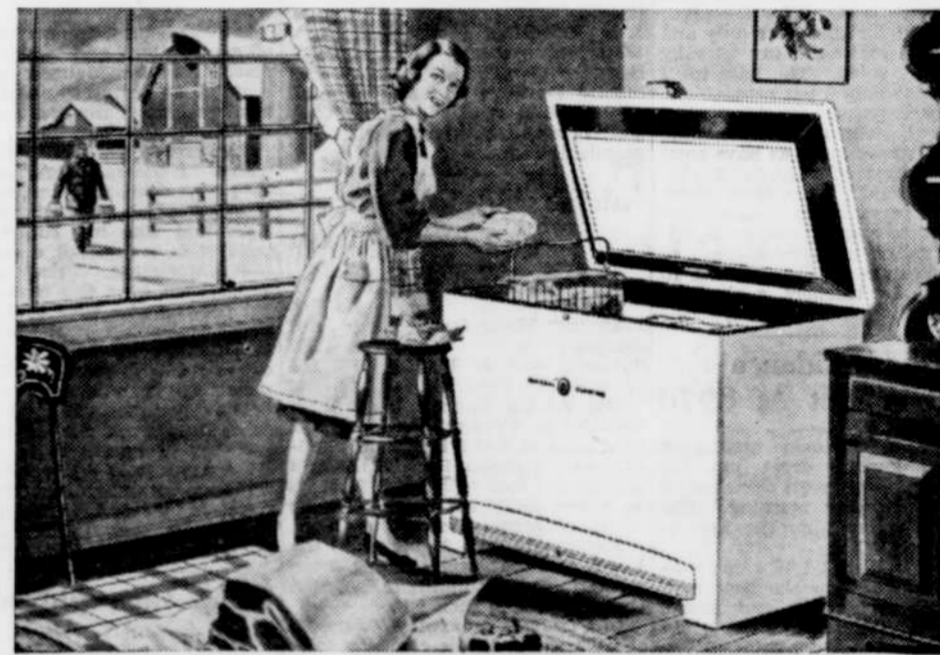

Some day you'll wonder why you ever stood over a hot stove for hours to preserve, when it's so easy with a home freezer.

Just picture yourself preserving this modern, easier way:

1. You scald your vegetables.
2. Pack and seal them in sanitary, airtight containers.

3. Put them in your home freezer! And that's all!

We have the General Electric Home Freezer that's roomy enough to hold 280 pounds of food. There's also a smaller model—4-cu-ft—that holds 140 pounds. You can preserve foods that hold round—and keep them delicious and fresh up to a year.

G. E. HOME FREEZER

8 CUBIC FOOT	\$319.00
11 CUBIC FOOT	\$369.00

DURING THE MONTH OF JUNE, WITH THE PURCHASE OF EITHER AN 8 OR 11 CUBIC FOOT FREEZER, WE WILL GIVE \$25 WORTH OF FROZEN FOODS OF YOUR CHOICE AT NO COST

Home Freezer

For quick-freezing foods at home... For storing the frozen foods you buy.

Lighting Clinic Planned For Boise

P. T. A. groups, service clubs, industrial leaders, architects, and the various segments of the electrical trade will see the latest developments in lamps and lighting at a clinic to be held in Boise June 20, 21 and 22, under the sponsorship of the Idaho Power company.

The chief purpose of the educational program, said A. S. Gilbert of the Idaho Power company at Boise, is to acquaint specific groups in southwestern Idaho and eastern Oregon with the latest information about new lighting equipment and the most efficient use of lighting.

The latest displays from Nela Park, headquarters of General Electric's lamp department, Cleveland, Ohio, will be seen at the clinic in Boise, Gilbert said.

Included will be a miniature schoolroom, a model store, a machine shop setup, and a fundamentals-of-seeing display. Lighting used in these demonstration devices will closely simulate the actual conditions described in the discussions.
