First of the Fine Cars in Value

The Car that puts your Best Foot forward
WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its ride.
There is the all-important point about what a car does to you—and that's where ROADMASTER really shines.
For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.
When you take its neat wheel in your hand—when you cut loose, with a toe-touch, the rich baritone of its big Fireball straight-eight power plant—when you feel the smooth surge of its Dynaflo-cushioned take-off—
Man, then you know you've got a real automobile!
And don't overlook this:
That graceful sweep of chrome along the fender—found on no other car made today—is a mighty eye-catching note of distinction.
Those four Ventiports, too, cause many a head to turn—they mark you unmistakably as the owner of the biggest and best Buick built—a car as fine and rich as any man has need for.
There are a lot of good, solid, dollars-and-cents reasons for making ROADMASTER your choice over any other car:
Its size. The commanding performance of its 152-hp Fireball valve-in-head straight-eight engine. Dynaflo Drive standard. A ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.
But if you're ready for a car that's more than just an automobile—if you want one that puts your best foot forward in any company—that's the real reason for seeing your Buick dealer quickly—to talk turkey about a ROADMASTER.

Your Key to Greater Value
This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.
