NOW IT'S EASY TO DO A *Sweet* JOB OF HARVESTING SUGAR BEETS— WITH THE NEW McCORMICK-DEERING HM-1 BEET HARVESTER

Now it's easy to harvest beets in less time—and at the right time—with a McCormick-Deering HM-1 Beet Harvester for your Farmall H, M or MD Tractor. This machine harvests 5 to 6 tons of beets an hour. And you don't have to worry about weather or field conditions—you can harvest your beets no matter whether it's hot, cold, wet or dry. In one continuous operation, this beet harvester tops, lifts, cleans and loads the beets into a special cart pulled behind the tractor. The cart is equipped to elevate the beets into a truck or wagon at the end of the field. This eliminates handling and it's not necessary to drive the truck across the beet field. Come in today. Let us show you how the new McCormick-Deering Sugar Beet Harvester will do a sweet, efficient job of saving you time and money.
