The Success of the financial campaign conducted on behalf of the

MALHEUR MEMORIAL HOSPITAL

attracted state-wide attention because of the large average of the contributions in a comparatively small community.

We feel sure that the institution will continue to draw the admiration of surrounding communities as the benefits of its operation become known.

We are sure this fine institution will grow with the development of this prosperous community.

IDAHO POWER
Electricity... Does So MUCH - Costs So LITTLE!

Just sharpen your pencil— and there you are!

ACROSS this broad land there are thousands of people who have been doing themselves a disfavor.

Seems they "just naturally assume" a Buick is beyond their reach—and so pass up the car they're really itching to own.

Now why "assume" anything as important to your happiness as a new car?

Why not see for yourself how delivered prices run—how close Buick matches your own budget—how frequently it is priced under some cars you may be considering?

Then—if there is a particular car in

mind—sharpen up your pencil a little.

Is it a six—or an eight, like Buick? If an eight, is it a valve-in-head eight? That adds a plus in efficiency, you know, even without the extra edge of Buick's Fireball power.

Will you ride on four soft coil springs, as in Buick—or on only two? Will the drive be through a sealed torque-tube that keeps the rear wheel assembly firmly aligned? It is in a Buick.

Do you get soft, low-pressure tires as part of the price—or as extras? Will you have bumper guards built as part of the bumper, or a one-piece cast metal grille that can be costly to repair or replace?

Does the price include air cleaner; oil filter; dual horns, windshield wipers and sun visors; an automatic dome light; self-locking luggage lid; a single key for all locks?

And is there an automatic drive*, or one in which gears still shift in normal driving?

Yes, sharpen your pencil—and there you will be, in a Buick.

Whether it's a SPECIAL, a SUPER or a lordly ROADMASTER, you'll be driving the big buy of its price class, and getting a rich bonus of driving comfort, driving thrill and "fashion-first" styling.

But you have to make the first move. You are the one who has to find out. How about starting now—with a call on your Buick dealer?

*Dynaflow Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.
