

Equipment To Combat Polio

Has Been Brought To Your Doorstep.

Through The Co-operation Of The

National Foundation for Infantile Paralysis

And The

Malheur Memorial Hospital

"Lend me a hand"

Adequate Facilities Are Now Available In This Community For The
Care And Treatment of Polio Cases

The March of Dimes

Now underway on a national scale, provides an opportunity for Nyssa residents to express their appreciation of the local Polio Ward by making liberal contributions

Four out of five of all reported cases of infantile paralysis require aid, in whole or in part, from funds raised during the annual March of Dimes of the National Foundation for Infantile Paralysis. Even those who do not need direct assistance from their local chapters benefit, however, because of better-staffed and equipped hospitals and more knowledge

about treatment, which have come about in large part because of the March of Dimes.

What 1951 holds in store for us no one can say, but approximately 54,000 polio patients in 1950 needed some help for care or treatment, 30,000 of them patients from 1949 or earlier.

YOU WILL HAVE AMPLE OPPORTUNITY TO GIVE
