**"What happens when
Standard men go into
the armed forces?"**

One question on many people's minds these days is how military service may affect themselves or people they know... their jobs, their family security. People ask us, of course, about what happens to employees of Standard Oil Company of California.

The answer shows what a big company can do. Standard Oilers come through this trying period in better financial shape than you might expect:

Let's take for example Bill, an average young Standard Oilier. He makes \$368 a month. He has Company-paid life insurance worth \$4,420, a pension plan paid partly by himself, other benefits.

Suppose Bill is called into the armed forces. One problem a man faces then is lower income. But because Bill qualifies as to dependents and length of service, he'll be helped by a Standard Plan.

When Bill leaves, he gets an extra month's pay. Then, Standard sends his family a monthly check to make up the difference between his GI and Company pay—up to one-half his regular salary.

Moreover, Bill's Company life insurance remains in force. And the pension plan, which Bill paid for in part while he was working, continues to grow—but now Standard of California pays it all.

When Bill comes back, his job is waiting, his benefits are intact. Standard, having big economic resources can act to preserve the human resources of the nation... people like Bill and his family.

This is Standard's "G.I. Policy" for qualified employees called into the Armed Forces. We believe it helps to strengthen Company morale, and that of the whole nation as well.

I'd Like to Know... Many people write to Standard asking pertinent questions about the Company. We answer all letters individually, but some points seem of general interest. We take this way of discussing them for everyone. If you have a question, we urge you to write in care of: "I'D LIKE TO KNOW," 225 Bush Street, San Francisco 20, California.
