## WADE'S WAY

The "Wade's Way" is an all metal truck bed (custom-built to fit any size truck) with conveyor chain in bottom to carry out most any kind of load.

With manure attachment (which can be put on in five minutes) you can spread manure any thickness desired and unload seven to twelve tons in five minutes.

With high side-boards and "Wade's Way" chopper hitch, ONE MAN can chop, haul, and stack 25 to 40 tons of hay a day, leaving tractors free for other duties.

With use of cross-conveyor attachment (also put on in 5 minutes) it very successfully unloads potatoes, pulps and chopped feed into cattle feeders; or beets into hopper; coal into bins and other kinds of loads needing side delivery.

The "Wade's Way" also hauls gravel, sand, cinders, road chips, salt, etc.
