**It Makes Your Dollars Feel Important too**

**THE** Buick pictured here can match price tags with a lot of cars smaller in size and horsepower and win. But that only gives you a hint as to what a whale of a buy it is. Like costlier Buicks, it has the wide-open view of a one-piece windshield. Like costlier Buicks, it has the gleaming distinction of sweep-spear styling. Like costlier Buicks, it has smart new fabrics and door trim. Like all other Buicks, it has the extra safety of new, long-lasting Wide-Band brakes. Like all other Buicks, it has the sure-footed, road-hugging, oven-keeled steadiness of the Million Dollar Ride—a combination of 15 engineering features including a husky X-braced frame, end-sway and side-roll stabilizers, Hi-Poised engine mountings, Permi-Firm steering and soft coil springs for every wheel. And like all other Buicks, it has a power-packed Fireball 8 Engine—a high-compression valve-in-head that gets extra wallop, extra mileage from every gallon of gasoline.

So we think that you'll feel mighty important bossing around this smart-stepping smoothie. And when you check the price we're asking against the field—we think your dollars are going to feel mighty important in buying power too. Hadn't you better look into this soon?
