With all the fruit trees heavily loaded with beautiful blossoms in full bloom, farmers are hoping that this year, there will be no frost to take the promised fruit.

# There's only one way TO GET ALL THE FACTS

You will read and hear many different versions of the settlement of the Ferguson-Ford suit; but there's only ONE way you can be sure that you get the story correctly . . . by reading the complete text of the Consent Judgment signed by the Federal Judge who presided over the trial. If you're interested, we want you to have a copy of this judgment.\*

We have no desire to refight this battle which has now been settled. Our business is selling farm equipment . . . the best doggone farm equipment that was ever built and selling that equipment keeps us mighty busy . . . putting on demonstrations, keeping the equipment in tip-top shape, trying as best we can to help the farmer with whom we do business.

About all we know about this recent lawsuit is that Harry Ferguson, Inc. received a check for more than \$9,000,000 . . . and that after December 31, 1952 no one else can build tractors exactly as ours is built.

So . . . we aren't going to get into any local fights about issues that have already been settled. We are going to keep right on doing business the way we always would, selling a tractor that is good enough for others to copy.

Maybe you'd like to see a demonstration of the tractor that had all this fuss made about it. How about telephoning for a demonstration. We can have a Ferguson at your farm tomorrow morning.

If you would like to read the complete text of the final Consent Judgment that terminated the Ferguson suit against Ford, let us know. We'll gladly send you a copy.
