**RAKES ANYTHING THAT CAN BE MOWED!**

**MM AVERY "RA" RAKER**

LASTS LONGER

EASIER TO OPERATE

DOES OUTSTANDING WORK

All crops—from lightest hay to the heaviest peanut growths—are gently raked into light and airy windrows with less clogging and shattering by the MM Avery "RA" raker. The flexible, all-steel "RA" is semi-mounted. It rides independent of the tractor, never bridging over low spots. Here is a three-wheeled rake that will carefully follow all the contours of your ground. The RA's single speed reel operates at a slower speed—approximately 50 r.p.m.—to give you a smoother, gentler action without flailing your crop. Adjustment of a single pin changes

swath width ranges from 6 to 9 feet. The telescoping drive shaft transmits power from the power-take-off to a flexible steel shaft. The "RA" has a minimum number of bearing surfaces which means less wear and longer life. Gears are enclosed in a dust and dirt proof housing. The gear and flexible shaft housings carry a season's supply of oil. This saves you time, money, and work. The safe "RA" rake passes easily through a standard farm gate, or down the narrowest country lane. When transporting, no part of the rake extends beyond left rear tractor wheel.

COME IN soon and let us show you the MM Avery "RA" Raker and other MM Avery tractors and implements.

Mr. and Mrs. Denver Edwards and Dallas, Mr. and Mrs. Pug Swigert and Vic Morgan attended the Bowman registered Herford sale near Payette Saturday. They enjoyed a picnic lunch together.

Mr. and Mrs. Austin Barton of Vale and Mrs. Dorothy Bibbey and Mr. and Mrs. A. L. Barton were in Boise Monday evening to attend the auto show.

Mr. and Mrs. A. R. Barton of Salt Lake City came Sunday to visit a week at the home of their son and daughter-in-law, Mr. and Mrs. C. B. Burningham.

Mrs. Frank L. Pike and three daughters, and Mrs. D. O. Bybee and Celia and Miss Linda Moncur spent Friday at the Caldwell park where they enjoyed swimming and a picnic lunch.

**"AS DEPENDABLE AS TOMORROW'S SUNRISE"**

In just a few years thousands of dairymen have learned that artificial insemination can be depended upon to assist in building a more profitable herd of dairy cows.

First... they have found that herd fertility can be taken for granted as one of the strongest features of artificial breeding.

Then... no fuss or bother with a dangerous bull; just pick up your telephone and call your local CO-OP DAIRY BREEDERS ASSOCIATION for service.

THE CHRYSLER NEW YORKER NEWPORT

WHAT ARE YOU DOING TOMORROW?

This invitation could result in the most important day of your motoring life. We'd like you to take the wheel and really drive a Chrysler New Yorker car. Everything good you've heard about this great car is true... and then some. Its new V-8 engine... its power steering... its power brakes... its astonishing comfort... each is an experience you will thrill to, and remember.

So... tomorrow... or any time that is convenient... come discover real power steering! Hydraulic power does 4/5 the work as you turn the wheel...

and also gives you 5 times the usual control on bad roads... with the same wonderful "wheel feel" every mile!

Drive America's finest engine! Feel for yourself the acceleration, response, reserve power of 180 V-8 horsepower. Learn why owners praise the matchless performance they get... without even having to use premium fuel!

Feel what power brakes are like! Power from the engine boosts the power of your toe. With up to two-thirds less than normal pressure, you will get the surest, easiest stops in your life!

Test the comfort that's unequaled! On body-pleasing chair-height seats... with sweeping vision all around... you take good roads and bad on shock absorbers with over twice the shock-absorbing power of those on cars you've had before!
