Garden Birthday Parties Summer Fun Fashion

For folks who have their birthdays in summer, it is gay to have the party in the garden, or on the terrace or porch.

Using a pastry tube, decorate the cake with names of the friends who are guests at the party and make ice cream an easy-to-serve accompaniment to the cake by buying the pre-packaged kind. Just bring the neat pint cartons to the garden table and slice the ice cream into convenient cube portions by cutting the ice cream across each way.

Pre-packaged ice cream is ready to take home, no waiting for a container to be filled. You'll find both pint and half gallon pre-packaged cartons of ice cream to serve groups large and small.

PAYLOAD
-1195 extra pounds of it!
-to cut your costs, increase your profits!

GMC engineering brings you this great new Model 470 highway tractor that hauls up to 1,195 pounds more cargo than any other vehicle in the 45,000 gross weight class.

Here are the reasons why. It will pay you to study them carefully.

Sensational new engine. Model 470 is powered by GMC's new 145 h.p. valve-in-head "302" engine—the most powerful gasoline engine for its weight in truck history.

Maximum power-to-weight ratio. The "302" engine weighs as much as 500

pounds less than other engines of comparable power, due to new high efficiency design.

Highest Compression—7.2 to 1—exceeds any other standard gasoline truck engine, accelerates faster. Delivers full power at an easy-stroking 3,200 r.p.m.

More ton-miles per gallon—less dead weight in engine and chassis means more profit in every mile.

Highest payload capacity—upwards of one-half ton greater than any other tractor of the same GCW rating.

Price—the biggest surprise of all. Compare the price you have to pay for this pace-setting GMC against the field. Nowhere else will so little buy so much in a 3- to 4½-ton tractor.

Why not come in and see for yourself!
