Now you Know!

The answer to everyday insurance problems*

By **RALPH LAWRENCE**

QUESTION: Does the word "collision" in automobile insurance mean that you must actually collide with another car before the Insurance Company will pay for the damage?

ANSWER: Of course not! Usually that form of insurance is called "Collision and Upset" and it covers collisions with other cars, with stationary objects, overturning and many other things.

*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.
