A Few Tips on Mailing Christmas Packages

First of all, we want to wish you and your family a very Merry Christmas!

A milk carton makes handy mailing container for cookies. Cut top of milk carton on three sides. Pack cookies together with a few marshmallows which act as humidors to retain moisture, keep cookies fresh longer. When filled, seal top of milk carton with tape.

Wet cord before wrapping packages for mailing. As it dries, cord shrinks, making tighter, safer package. Names and addresses on packages will

remain legible if you give them a coat of clear nail polish, before sending. Thanks very much for your patronage of our local business during this past year. And Happy 1953!
