### Best Sellers At County Library

Several books on current best-seller lists headline the new books at the Malheur County Library that will be ready for circulation on Saturday, October 11.

Thomas E. Dewey's "Journey to the Far Pacific" is a readable commentary of conditions in the Far East where the author traveled unofficially in 1951. He went to Japan, Korea, Formosa, Indo-China, Malaya, and the Philippines in the course of his journey.

A novel with an Eastern setting is Pearl Buck's "The Hidden Flower" which begins in Japan where American-born Josui and Lieutenant Allen Kennedy meet and fall in love.

Lydia Kirk in Moscow with her ambassador husband, Admiral Alan G. Kirk in 1949-1951, and now writes her observations of social life and customs there in her book called "Postmarked Moscow."

An English novelist, using the name Henry Green, writes in dialogue form a satire on London life

called "Dotting." It is about all that happens when Diana attempts to retaliate against her husband, Arthur (in his forties), when he is attracted to eighteen-year-old Annabelle.

Eric Williams presents an absorbing description of the escape attempts and of the frustrations of camp life experienced by British officers held during World War II in a German prison camp. His book is "The Tunnel."

"The Art of Book Reading" by Stella Center is according to its introduction, "addressed to men and women who can read... but who are interested in reading a greater

variety of books with better comprehension and fuller appreciation."

## WHY WHEN THE TRUTH IS:

More than 80% of Oregon's Dairy Farmers (who really know the milk business) oppose the tricky substitute initiative. They are fighting it with every hard-earned dollar they can spare, because they know it could threaten your steady supply of rich, wholesome milk.

HANS LEUTHOLD, Tillamook dairy farmer, says:

"The milk consumer in Oregon, as well as our many small dairy farmers, should be seriously concerned over the attempt of an out-of-state grocery chain to pass a substitute milk control initiative promoted by them to serve their own selfish interests. YOU are not protected under their initiative. Oregon's \$70,000,000 dairy industry, so vitally important to our state agriculture economy, is not protected, either. Your present supply of rich, sanitary, wholesome milk at present fair prices, and our ability to better our herds and sanitary equipment, IS PROTECTED under our present FAIR law. Let's keep it!"

## HERE IS THE TRUTH ABOUT YOUR PRESENT MILK CONTROL LAW!

- IT DOES ASSURE YOU and your family a steady supply of rich, wholesome milk at uniform, low prices the year 'round.
- IT DOES AFFECT YOUR milk's sanitation and purity by giving dairy farmers a stable market and so a chance to maintain better herds and keep modernized the high-priced equipment needed.
- IT DOES PREVENT YOUR milk supply from falling under control of a politically appointed one-man dictator as called for under the out-of-state promoted initiative. At present, a 7-man Board of Agriculture fairly administers the GOOD Oregon Milk Control Law to your best interests.

DON'T BE TRICKED into repealing our FAIR MILK LAW -that has worked so well for 19 years.

## Vote 333 X NO

PROTECT Your steady milk supply at FAIR PRICES. OREGON'S many small dairy farmers. VOTE WITH THOSE WHO KNOW THE MILK INDUSTRY... Vote 333 X NO!

Ad. by Oregon Milk Producers Committee, Stan Church, Sec'y., Mar., 912 Corbett Bldg., Portland 4, Oregon.
