HOW TO BE A BETTER COOK and save money too!

BY Mary Blake
Home Service Director Carnation Company

This time of year, strawberries are at their flavorful best. For an easy-to-prepare family dessert, make your Strawberry Shortcake and the topping with Carnation Evaporated Milk. Remember, its double richness and heat-refining make it specially suitable for baking. And don't forget, Carnation is so rich it whips.

STRAWBERRY SHORTCAKE
Use your favorite brand of packaged biscuit mix calling for milk, but instead of regular milk, use a mixture of 2 parts Carnation Evaporated Milk diluted with 1 part water. Prepare and bake according to package directions. Split biscuits and fill with sliced, sweetened strawberries. Instead of expensive whipping cream, use Carnation Whipped Topping.

CARNATION WHIPPED TOPPING

(Makes 3 cups)

1. Chill 1 cup undiluted Carnation in icecube tray until ice crystals form through the milk (25 to 30 minutes), or place the unopened can on chopped ice for 2 to 3 hours.
2. Pour into bowl and whip until it just begins to thicken (about 1 minute).
3. Add 2 tablespoons lemon juice and whip until very stiff (about 1 or 2 minutes more).
4. Fold in 2 tablespoons granulated sugar.
5. Serve immediately as a topping for shortcake, puddings, cakes, pies, many desserts.
