Guacamole Delivers Magic Life To Any Party Table

"Guacamole" is a magic word in Mexico that signals a real taste treat.

An avocado mixture that is at once a sauce, a dressing, a salad and a unique "dip" to be served at your next party, guacamole goes far back in Mexican history. There are records that Cortez ate its avocado base the first time he was fed as a guest of Mexico in 1519.

Today Guacamole plays just as big a part in the Mexican diet, and is rapidly being discovered by American homemakers who are looking for something new and exciting to serve when entertaining.

In Mexico, Guacamole is prepared in a number of different ways, but invariably at Mexican cocktail parties it is served with corn chips as a "dip."

Guacamole dip with corn chips is wonderful for parties, an excellent adjunct to meals, and fits

perfectly on the table in front of the TV set.

GUACAMOLE DIP

1 medium onion, peeled
2 medium tomatoes, peeled
1 small hot pepper
1 clove garlic, crushed
2 teaspoons salt
2 avocados
2 tablespoons lemon juice
Corn chips

Grind onion, tomatoes and pepper together using fine knife of grinder. Blend in garlic and salt. This mixture may be refrigerated several hours before serving. When ready to serve, pare avocados and remove seeds. Mash avocados and blend with lemon juice. Combine tomato mixture with avocado mixture and serve as a dip with corn chips. Yield: 3 cups dip.

If a slightly more spicy dip is desired, add one teaspoon of hot sauce to the mixture.
