Frozen Orange Juice is Versatile Summer Item

The frozen concentrated Florida orange juice which has become such a popular item because of its excellent quality and convenience of handling makes inclusion of orange juice in all sorts of recipes easy even when fresh fruit isn't available. Simply open the small 6-ounce cans, add three times as much water, and you have full-strength juice to use in beverages, cakes and cookies, sauces, and any recipe calling for orange juice.

This Ambrosia Cake recipe is an example of how this product can be worked into a favorite old flavor combination—orange and coconut. There is orange juice in the cake and in the Orange Frosting, and the result is a cool-as-a-breeze confection that will make a hit at a summer tea.

Florida Ambrosia Cake

2 cups sifted cake flour	1/4 cup Florida orange juice (frozen concentrated juice may be used)
1 1/2 cups sugar	2 eggs
2 teaspoons baking powder	1 teaspoon almond extract
1/4 teaspoon soda	
1 teaspoon salt	
1/2 cup shortening	

Sift flour, sugar, baking powder, soda and salt into mixing bowl. Add shortening. Add orange juice and beat 200 strokes (2 minutes by hand or on low mixer speed). Scrape bowl and spoon or beater. Add eggs and almond extract and beat 200 strokes. Bake in two deep greased 8-inch layer pans in moderate oven (375°F.) 25 to 30 minutes. Spread with Seven Minute Orange Frosting.
