If Your Car
Rides
Like This

When It Should
Ride
AS SMOOTH AS THIS

It's Time To See Roberts-Nyssa Garage

Your car probably steers so sweetly on the road, it's hard to realize that thousands of travel-miles and millions of bumps may have put the front wheels out of alignment.

Yet a little misalignment can scuff a lot of mileage off your front tires — and make control less sure.

It's an easy matter for us, with our special equipment, to give your whole front end assembly the check-up it should have periodically. Let our experts make sure your car is tracking true.

You Can Take Our Word For It!

Let's look at this used car situation frankly.

You know that low prices are not the only answer. You know that any price is too high if the car itself fails to stand up.

That's why it is important for you to pick the dealer who sells you a used car as carefully as the car itself.

Most of our cars are one-owner cars, with many thousands of happy miles ahead of them. Every one is carefully inspected by skilled mechanics. If we find anything that needs reconditioning, we do the job just as carefully as we would do it for a Buick owner.

We aim to stay in business — and we know that the way to stay in business is to give the people who buy from us a square deal.
