YES, WE'RE "HELPING BUILD OREGON TOGETHER"....

REGARDLESS OF SNOW, RAIN OR SUNSHINE,
750 MILLION QUARTS OF MILK

are delivered in Oregon

each year to countless housewives, grocers, restaurants, bakeries and other users of milk.

About 30 per cent of the food we use is milk itself or has milk as an ingredient. The Grade A label on your quart of milk stands for highest quality. It can only be used if all requirements of the U. S. Health Grade A Milk Ordinance as well as the City and State Grade A milk ordinances have been met. A fair price for Oregon Grade A Milk producers makes this possible.

Nearly one person out of every 15 Oregonians is employed the year around in Oregon's Dairy Industry, and their purchasing power is vital to you as a consumer as well as a taxpayer.

Back of every quart of milk lies the prosperity of whole communities of our state. Country towns flourish only when agriculture products sell at a fair price. In turn these small towns keep the wheels of industry turning in our cities and help give thousands of fellow citizens steady employment.

In order to safeguard Oregon's 70-million-dollar Dairy Industry, the legislature enacted the Oregon Milk Marketing Act. Due to this law the farmers' share of the consumers' dollar has increased from 39% in 1933 to 56.14% in 1954. Yet milk is today the best and cheapest food your money can buy. This law is essential to our health as well as the economic welfare of our state. It is beneficial to producers and consumers alike.
