Burgess Jersey Herd Has High Rating

An average production of 9,253 lbs. milk containing 520 lbs. butterfat per cow is the accomplishment of the registered Jersey herd owned by Fred E. Burgess, Route 2, Vale.

The herd of 33 Jerseys recently completed a 12-month test period on Herd Improvement Registry. The official test was made under the supervision of Oregon State college in cooperation with The American Jersey Cattle club, breed registry organization located in Columbus, Ohio.

Four registered Jersey cows owned by Burgess completed records of Herd Improvement Registry test which entitles them to special recognition from the American Jersey Cattle club.
