I'm convinced!

I can cook better with modern cooking equipment! My husband and I compared notes with several friends... then decided not to make our old range "do" any longer. Here's why:

1. Cooking results are better with a modern electric range. Heat is even and accurate. Double ovens permit simultaneous baking of

foods requiring different amounts of time, different degrees of temperature.

2. Cooking is easier. Dependable temperature control and self-timing ovens simplify preparation of meals.

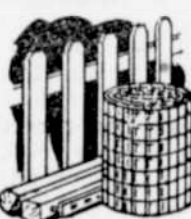

3. Cooking is faster. New quick heating elements and high speed ovens get cooking done faster—with positive results.
