CARS ARE MY LINE

by: Boyd Wilson

In a New York junkyard of old cars not so long back, a man with a sharp eye for antique autos found a delapidated hulk that appeared to be of European vintage.

He paid the unsuspecting junk dealer \$350 for it—and thereby got the world's rarest and most valuable classic car. It was a Bugatti Royale, made around 1927 by a strange feudal sort of auto maker in French AlsaceLorraine. Every piece of the intricate, 130-mile-an-hour beauty was hand made and to antique car collectors the \$350 junk was priceless. It is to car collectors what a rare stamp is to stamp collectors.

Originally the car cost \$40,000—for the engine and chassis, and King Alphonso of Spain, its original owner, paid extra for the coachwork.

This car, in the language of car dealers, was a "clunker." Most dealers run across clunkers now and then, although few ever have the thrill, or the misfortune, to acquire a hidden gem like the Bugatti Royale.

But the "as is" car can be a godsend for the man with a little mechanical knack, or the time and interest to patch and mend. An old car though, is a problem for the car dealer—he knows that the car is basically sound, but the price it would bring even in top shape isn't worth turning skilled mechanics loose on it.

We often have good "as is" models, older cars that need the do-it-yourself touch of someone with a greasy thumb. Or, quite often, we get tossed on the scrap heap, offering transportation that's almost cheaper than shoe leather.

We can't offer you a Bugatti Royale (I just ran out and checked) but we've some old timers that can be good transportation. Among which are:

1941 Mercury Sedan	\$ 95.00
1941 Studebaker Champion	85.00
1941 Olds Sedan, hydromatic	195.00
1940 Plymouth Sedan	55.00
1937 Lincoln, has new motor, a real fishing car with power to spare, and it knows where all the good fishing holes are too, it learned that from its former owner, one of the best fisherman in town.
