## Joe Chamberlain's Father Passes

Mr. and Mrs. Joe Chamberlain and son John left Sunday evening for Vancouver, Wash., where they were called by the death of Mr. Chamberlain's father, V. L. Chamberlain.

He passed away Sunday at 4 p.m. from a heart condition. Services were held at 3 p. m. today (Thursday) at the Vancouver Funeral home.

**FLY HERE FOR RODEO**  
Mr. and Mrs. J. C. Snyder of Michigan, visiting in Blaylock, Ore., heard of the Nyssa rodeo and flew by plane to see the shows Friday and Saturday. They then continued on their way home to Michigan.

**PIETER TENSEN, PIONEER LEADER IN FARMING DIES**  
(Continued from Page 1)  
used by other progressive farmers as standard practices. His farming experiences and the examples he set are considered invaluable contributions to our community.

**Starts County Project**  
It was through the efforts of Pieter Tensen that a County Agent program was started in Malheur County. He was always active in Grange programs, triple A service, and farm rehabilitation work.

Through his efforts red potatoes and head lettuce were first grown and shipped in Malheur County.

He was active for many years on various community service boards, such as school board director, irrigation board director, and an appraiser for farm land.

**His Influence Felt**  
The Nyssa community will miss Pieter Tensen but there is unanimous opinion that it will always be a better and richer farming community as a result of having the privilege of association with a man who had such industry and foresight.

Pieter Tensen was born in Schellinghout, Holland on December 21, 1872. He is survived by his widow, Elizabeth Tensen, two sons, C. M. Tensen and Dick W. Tensen, and one daughter, Greta Broad. He was preceded in death by one son, Klaas Tensen. He is also survived by one sister, Mrs. Dick Groot of Jasper, Minnesota, two grandchildren, and three step grandchildren.

**NO-ACCIDENT WEEK WILL STRESS NEED FOR SAFETY**  
(Continued from Page 1)  
climbing into haylofts and silos.

**Lucky License Numbers**  
Your auto license may be the Lucky Number each Saturday at Peterson Furniture Co., 217 Main St., 9:30 a.m. to 6 p.m.

Three different license numbers will be displayed somewhere in our windows.

If your number is shown, come in and receive your prize. You may be the winner of one of the prizes to be given away — floor lamps, lawn chairs, end tables, TV trays, etc. (Adv.)

**BAKERY SUPER SPECIALS**

are all hazards which must be safeguarded against, the Council asserts.

**Concerted Effort Planned**  
Mabel Mack, assistant director of the agricultural extension service at Oregon State college, says the governor's committee on farm safety for Oregon plans a concerted effort during National Farm Safety Week to make farmers more safety conscious. Al Bauer, Salem farm radio director, is chairman for the committee.

The committee is made up of representatives from the Oregon Grange, Farm Bureau Federation, Farmers Union, REA's, youth groups, industrial accident commission, OSC, press and radio.

"We believe farm safety is primarily a job of education through continued publicity and we're going to take full advantage of this opportunity during National Farm Safety Week," says Bauer.

President Eisenhower recently underscored the need for more attention to safety precautions on the farm in pointing out that "a

death toll of 14,000 farm residents each year is a tragic loss to the nation."

**Loss to Agriculture**  
Oregon's Governor Paul Peterson, referring to the huge death toll and the work of the state's farm safety committee, had this to say: "In addition to the deaths, the president has also pointed out that more than 1,000,000 farm residents are injured each year. When we project these figures into our own farming areas, we can begin to realize the huge loss to agriculture, one of our state's greatest industries."

The National Safety Council has issued the following advice in the operation of tractors:

1. Children from 1 to 4 years should NOT be given rides on tractors; a fenced area with play equipment should be provided for small children.

2. Children from 5 to 9 years should not ride on or play around tractors; parents should direct their play away from danger.

3. Boys and girls 10 to 14 years of age should NOT be given a man's work to do.

blame here, Hackler said.

Between the ages of 50 to 64 years, another fourth of the fatalities occurred. These persons were "old enough to have known better." The safety council assumed that fatigue and physical deficiencies of one type or another were often responsible here. Periodic physical checkups were recommended.

The final sixth of the tractor fatalities happened among operators above 65 years of age. The safety council cautioned that tractor driving requires quick reflexes and strong hearts and advised against "testing them by accident." "See your doctor twice a year," was the admonishment.

**Training Needed**  
This is borne out by the fact that a fourth of tractor fatalities occurred in the adult work group from 20 to 49 years of age. Improper training in operation and safety requirements gets the

blame here, Hackler said.

Between the ages of 50 to 64 years, another fourth of the fatalities occurred. These persons were "old enough to have known better." The safety council assumed that fatigue and physical deficiencies of one type or another were often responsible here. Periodic physical checkups were recommended.

## Join the Swing to Artificial Breeding

Malheur Dairy Breeders Association technicians inseminate one-third of all dairy cows in Malheur county.

Artificial breeding insures disease-free breeding and sure conception.

Six of thirteen herds in Malheur county that produced 400 to 500 pounds of butterfat on DHIA tests, are users of Malheur Dairy Breeders Association. The others are purebred breeders.

To build your herd as these six herdsmen have done, Phone ONTARIO 1099-W.
