NOTICE TO WESTERN BEET GROWERS

Only General Machine Co. of Ogden, Utah makes

THE GEMCO

TWO ROW BEET HARVESTER

**GENERAL
MACHINE Co.**

Another firm is attempting to sell its harvesters by taking advantage of the outward appearance and even the orange color of the GEMCO.

As a result, General Machine Co. has caused an injunction to be issued by an Idaho court directing a Boise firm to desist from:

1. Using the name "GEMCO" in any manner whatsoever in identifying its products.
2. Selling beet harvesters resembling the

design and trade dress of those made by General Machine Co. without distinguishing marks indicating their origin.

3. Doing any other act which would infer that their products are those made by General Machine Co. or that they are similar to those made by General Machine Co. in any way.

In spite of this order, we have reason to believe that the spirit and intent of the court in issuing this injunction is being violated!

PLEASE DO NOT BE MISLED!

BY EXAGGERATED CLAIMS AND A COAT OF ORANGE PAINT! Insist on a field demonstration before you buy!
