A Little Lady Named Beautena

For the past four months, we have been feeding this choice Holstein Heifer from Leroy Herrman's herd on Calf Startena just to give her away in celebration of Nyssa's Harvest Festival and to show you how a calf will grow on Purina's Calf Startena.

She weighs over 325 lbs. now and is a picture of a future cow with the ability to produce over 500 lbs. of fat a year.

Beautena will be awarded, by lot, to one of those who holds tickets for the drawing, which will take place in the Tobler's store at 5 p.m. Saturday, September 24.

Tickets may still be acquired through purchase at Tobler's.

Come in and learn how you might win this fine calf, and be sure to attend the drawing at 5 P.M. SATURDAY.

IS YOUR WHEAT GETTING NITROGEN IN THE ROOT ZONE?

SHELL'S way is the Sure way to fertilize with nitrogen

82% NITROGEN

FIRST—AND BEST—IN AMMONIA FERTILIZATION!

When you buy a nitrogen fertilizer, be sure you get one that gives you full strength nitrogen, in a form that can go to work right away, and one that stays with your wheat crop throughout the growing season.

Shell NH₃ answers all these important requirements for nitrogen fertilizer. It is guaranteed a full 82% nitrogen. And because Shell NH₃ is scientifically placed in the root zone, it starts feeding wheat immediately, resists leaching,

maintains a supply of plant nourishment.

Shell NH₃ Service—scientific nitrogen application by Shell-trained experts—assures you full value for your fertilizer dollar. Shell NH₃ dealers know local crop and soil conditions. They use application equipment perfected in over 20 years of fertilizing experience.

Get healthier stands, yield increases up to 50% or more, and a return of as much as \$4 for every \$1 invested. Fertilize with NH₃ the SURE Shell way!

Ask us for a copy of the Shell NH₃ bulletin on the SURE way to fertilize wheat.
