## College of Idaho Plans Additional

Activity on a new men's dormitory at the College of Idaho at Caldwell and an addition to Simplot dining hall's facilities is expected to get underway this fall and be ready for occupancy by September, 1956. The announcement was made last Monday by President Tom Shearer at the opening faculty meeting of the year.

Preliminary cost estimate for the dormitory is \$385,000 and the remodeling of the dining hall is of a government loan for \$331,000 was received late in May. This approval was based on the college's eligibility and its need for the facilities. Papers were sent to the San Francisco regional office Aug. 20 for final approval which will be dependent upon satisfactory review of the full application.

The new dormitory will be a three-story brick building which will house 150 men. It is to be located on land which is currently used by a hockey field. The enlargement of Simplot dining facilities will be to accommodate the larger number of students who will be living on campus and to provide a more convenient entry hall to the dining room.

## More Vegetables, More Ways

There's no excuse for vegetable monotony at the family table. The wide variety of vegetables, fresh, frozen and canned, plus the myriad of free recipes for preparing them, make happy eating as easy as the proverbial pie.

From now through autumn, fresh vegetables are at their best. In super markets, canneries, and roadside stands. Several varieties of squash make delicious (and inexpensive) main dishes. Golden-acorn acorn squash, bright green zucchini or delicate yellow crookneck summer squash take to tasty ground meat fillings like poultry to celery stuffing.

The recipe below specifies acorn squash, but zucchini or crookneck varieties may be substituted. The latter probably will take less baking time, depending on size and maturity. They should be baked only until just done, not soft or mushy. *Flavor Hints* when preparing squash as a vegetable:

Use Ac'cent along with salt in the cooking water or at serving time. Mash squash with lemon juice, butter or margarine and a touch of cinnamon and sugar, for new flavor interest.

### Foil-Baked Acorn Squash

- 3 medium acorn squash
- 2 tablespoons melted butter
- Salt and pepper
- 1/2 teaspoon Ac'cent
- 1 cup finely-cut cooked chicken or pork
- 1/2 cup chopped celery
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- 1/2 teaspoon Ac'cent
- Pinch poultry seasoning
- 1 cup fine dry bread crumbs
- 2 tablespoons melted butter
- Aluminum foil

Cut squash in half; remove seeds; slice off tip ends. Brush squash inside with melted butter; sprinkle with salt, pepper and Ac'cent. Combine remaining ingredients; blend well. Fill squash with mixture; round up tips. Cut 4-inch square of aluminum foil; brush one side with oil. Place oiled side over filled squash. Cup and shape foil over squash to act as cover. Bake in 1 1/2-hour dish. Bake in hot oven (400° F.) 40 to 60 minutes depending on size of squash. Makes 6 servings.
