The safer car wins... and Chevrolet's the winning car

Every checkered flag signals a Chevrolet victory in official 1955 stock car competition—not only against its own field but against many American and foreign high-priced cars, too!

Let's translate these victories into your kind of driving. You've got to have faster acceleration to win on the tracks. And that means safer passing on the highways. You've got to have better springing and suspension. For you: safer and happier motoring. You've got to have big, fast-acting brakes and easy, accurate steering. More things that make your driving safer. Come in and drive a Chevrolet yourself.
