Not long ago a hush-hush, camouflaged '56 Chevrolet scorched the nerve-breaking road up Colorado's Pikes Peak for a new NASCAR* certified record—the first time that old King of the Mountains has seen a new official stock car record in years! And what a road! 170 chilling turns and no guardrail! It's the first and only time a new model ever proved itself such a great road car before its introduction! The '56 Chevrolet showed the kind of performance that makes driving safer and more fun. So wait for the car that beat the King of the Mountains!
