When snows pile up...

4-Wheel-Drive 'Jeep' gets you through!

No need to wait for winter roads to be cleared! You can get through in spite of the weather with the extra traction of the Universal 'Jeep's' 4-wheel drive. Because front and rear wheels supply power to take the Universal 'Jeep' through snow and sleet, it holds to the course you steer over surfaces that cause other vehicles' wheels to spin.

On clear roads and highways, the Universal 'Jeep' travels in conventional 2-wheel drive. You just shift a single lever for the extra traction of 4-wheel drive when you must forge through snow drifts, over sleet-glazed roads, or out across frozen open land where no roads exist. Let your dealer show you how you can get through, in winter's worst conditions, with a 4-Wheel-Drive Universal 'Jeep'.
