THERE'VE BEEN
CHANGES IN ELECTRIC
RANGES, TOO!

Is your car newer than your electric range? Ranges change and improve in efficiency, style and beauty, too. Take a good long look at your present range. It was built to give you years of good service, and it has. But what about the new features that make cooking even easier . . . faster high-speed elements, double ovens, push-button controls, improved range-top minute timers, automatically-controlled elements?

Most people keep their automobiles up-to-date . . . your wife deserves an up-to-date kitchen, too. Replace your older model electric range now for easier, faster, more dependable cooking and baking.

IDAHO POWER
Electricity . . . Does So MUCH—Costs So LITTLE!

Heard About BEST BARGAIN Electricity?

In Idaho Power territory, with rates 35% below the national average, ALL electricity is a bargain! BUT, your automatic electric water heater entitles you to 700 kilowatt-hours of BEST BARGAIN electricity at only 9/10 of a cent each (after you have used an initial 200 KWH). Since the water heater ordinarily requires only a portion of those, the balance can be used for other modern electric conveniences. Use ALL of your BEST BARGAIN kilowatt-hours, and you'll . . . LIVE BETTER ELECTRICALLY!
