**No other truck can offer you as much as a new 1956 GMC**

LOOK at the facts—no matter what kind of truck you need.

GMC's new light-duty power plants have as much as 16.2% greater displacement than the nearest competition. H.P.'s been upped as much as 20%. V8's are the latest in short-stroke design.

In the new half-tonners, a brand-new fast-ratio cruising axle gives you all the efficiencies of overdrive. And it's an option at a fraction of overdrive's usual price.

A new ride stabilizer gives Blue Chip

light-duties remarkable new riding comfort. No need to fight the steering-wheel—even on the poorest roads.

All GMC's now have a 12-volt electrical system. Tubeless tires are standard equipment. And a new boulevard styling makes a GMC far and away the best advertisement you can run.

In short, new 1956 Blue Chip GMC's are just about as impressive a line as you've ever seen. Values are even more remarkable. Drop by and see for yourself!
