### Summertime Eating is Fun in Oregon

Here we live in the one spot in the world where the finest strawberry shortcake is possible. Our Marshall variety strawberries are the finest berries known for flavor and richness. Oregon's dairy products meet the high standards set by the nation's dairy industry. And of course, the flour used in your shortcake is the finest baking flour known... made of soft wheat grown in Oregon!

OREGON HAS ALL IT TAKES to give you a summertime of fine strawberry shortcake eating. The wheat growers and strawberry growers have encouraged your grocer to make "specials" this week so you will be able to give your family all they want of this super dessert. Your baker too, will be featuring many delicious shortcake treats. Particularly handy are the shortcake dessert cups. However, if your idea for shortcake is crunchy, golden biscuits, here's an old-fashioned recipe which is a real snap... and made better because of Oregon wheat.

Shortcake Biscuits  
Combine: 2 cups biscuit mix  
1/2 cup melted butter  
1/2 cup milk or light cream\*

Mix lightly until blended. Turn out on lightly floured board or cloth and knead 4 or 5 times. Cut in large rounds. Bake at 450 degrees 15 minutes or until golden brown.

\*To make a large shortcake to cut in slices or squares, add 1/2 cup milk or cream. Mix lightly and spread in greased baking pan. Bake at 425° about 20 minutes.

Satisfying in every way, eye-appealing and mouth-watering; there is nothing that tells you so well that summer is really here. Try Strawberry Shortcake, party-time or anytime... serve plenty.

REMEMBER: Summertime energy is in your shortcake, too. The choice Oregon wheat used in your shortcake helps give you the needed energy for the hot summer months, by contributing rich body building protein.
