Your Name In The Paper

(Industrial News Review)

How valuable is local newspaper advertising to local business people? Here's what the American Bankers magazine, a publication which represents a traditionally hard-headed profession, has to say: "No business man or woman in any town should allow a newspaper to go to press without his or her name and business being mentioned somewhere in its columns. This does not mean you should have a whole, half, or even a quarter page advertisement in each issue of the paper but your name and address should be mentioned if you do not use more than a two-line space.

"A stranger picking up a newspaper should be able to tell what business is represented in a town... it's the best possible town advertiser. The man or woman who does not advertise does an injustice to himself or herself and definitely to the town."

Stranger In The County

By Bill Campbell

Egad! Campbell, send up a flare, blow up your waterwings and head for the river... there IS a difference between chickenpox and smallpox! Last week I had Gene Grasty laid up with the latter, not the former, much to the concern of the family which so advised the paper, bright and early Thursday morning.

Understand from a nurse that only about five cases of smallpox were reported around the country last year... had I been right Grasty might have been a man of distinction.

As it is, he's just another of the kids! You horn toad collectors better get on the ball 'ere Doc Sarazin leaves town. He hopefully listens for the melodic tones to emanate from his office—but to date know of only one that is being fattened up prior to presenting him to Doc.

Say, Doc, don't they use toads and frogs for something else, too? I'm beginning to realize where my money goes as it is extracted from my check each week for use in Salem for the good of the people of Oregon.

Friday we received an heavy manila envelope 11 1/2 x 14" not only sealed but with a 3-inch gummed tape to further protect the contents. It was sent out of the state adjutant general's office, first class mail—six cents—and when we opened it we knew it must be of importance.

Enclosed was a mimeograph release full of nothing, printed on an 8 1/2 x 11 sheet of paper, originally planned for use in a regular business envelope.

As one rabbit said to the other—let's multiply... Reminds me of the time I was overseas and a general inspected our mess (and it was) and raised the roof because we had five large tins of chocolate in stock which, according to the book, should have been used. (Remember how scarce it was in the states?) Our battalion commander gave me a baleful look and told me to see that the stuff was consumed before the general returned the following week.

My colored troops simply didn't like the stuff but orders were orders. The five 50-pound tins now rest in peace in the muskeg near the foot of Mt. Moffitt at Adak. Ever up that way, help yourself.

Our fire department Monday noon roared out to Chet Bown's and bless my soul if the doghouse wasn't on fire! Rumor has it Chet isn't allowed to smoke in the house!

Learn a fact a week department: Doc Dwight Mason had an entirely different interpretation of the word "pica" which we named the pup. To us it meant a small type. To him, it was the first of a medical definition (I can neither spell or pronounce the second part) which meant an animal that chews wood and other inorganic matter.

By Golly, Doc hit it closer than I did! Worry department: Stan Olsen, Nyssa's high school basketball and baseball coach has also been a sports writer for Fort Collins.

That's bad enough, but the guy also happens to weigh 195 and towers 6' 2" from the pavement.

Now I've got two reasons to pray for a winning season. Sorry if my eyebrow is on tilt. Can't get it down after reading
