Your family's entire supply of fresh and frozen foods can be kept on hand in the same kitchen space that an ordinary refrigerator occupies. Each section is kept at the right temperature automatically: zero for frozen foods; from 38 to 42 degrees for unfrozen foods. Many models have automatic defrosting; most are available in kitchen-matched colors. A combination refrigerator-freezer gives you more space for frozen foods (with fewer shopping trips), with still plenty of room for fresh foods. See them at your dealer's... now!
