From where I sit... by Joe Marsh

Just Call Me Cupid

The counter down at Pete's was full yesterday, except for three seats near the end, so I plunked myself down on the middle one.

As I took my first sip of coffee a cute young couple came in—a girl in her early twenties followed by a fellow perhaps a year or two older. Without saying a word, they took the only two seats left—on either side of me.

Remembering my younger days, I insisted the young man take my seat so's they could be together. He hesitated at first, then finally he shrugged, grinned

and said to the girl, "Well, let's make him happy. My name's 'Ricky'. What's yours?"

From where I sit, there was no harm done that time, but jumping to conclusions can be embarrassing. In fact, it's sometimes mean and intolerant—like the way some folks jump to the conclusion a man's "wrong" to prefer a glass of beer over another beverage. Lack of facts coupled with lack of judgment introduces trouble.

Action Test the New Kind of FORD

SWAGER FORD SALES

The exciting Ford Fairlane 500 Club Victoria (above)—over 17 feet long—is one of two new, bigger Ford sizes this year.

If you think it looks new... wait till you drive it!

...For there's where Ford's newness really pays off
...in melting mountains...in smoothing the bumps
...in straightening the curves

You can see that Ford's longer, lower Sculptured Look makes other cars look downright old-fashioned. But the part you can't see—the new "Inner Ford"—is what shows its stuff when you drive a Ford. It's revolutionary from the wheels up! And it feels it.

Ford's wider frame lets you sit sweet and low. And Ford's new front suspension, rear springs and new easy handling are part of the scheme to make you think every road is cloud-smooth.

The magic touch of the new Ford power plants makes mountains disappear. What looks like uphill feels like downhill. You get this surging power in a wide choice of Silver Anniversary V-8 engines. Or choose Ford's Mileage Maker Six, the most powerful Six in the low-price field.

There's magic in Ford's price tag, too! You won't believe this big new Ford is still priced Ford-low. But it is. Come in and test its magic. It's a real "Wizard of Ah-h-h-h's!"
