The decision of

Arthur Maxwell.

There once was an intelligent young man named Arthur Maxwell. He thought he would like to "step up" to a "medium-priced" car. So he went and looked at a model just "a few dollars more" than a Ford. At first glance it looked good. But when he got inside the car he exclaimed, "No radio? No heater? No automatic transmission? You call this *Luxury*?" He soon saw that a *medium-priced* car with equipment he wanted became a *HIGH-priced* car. So, being an intelligent young man he dashed off to his Ford Dealer and bought a *Ford Fairlane*—the true luxury car in the low-price field—with all the equipment he wanted, for less money than the stripped-down model he *thought* he wanted. Why don't you do as Arthur did?

Ford prices are lower... Ford trades are higher

Ford prices start as low as \$182400
