QUESTION: I've heard that smoke damage from stoves is included in Extended Coverage insurance. Over a period of time, the wall around the vent from our kitchen range has become streaked. Would that be covered?

ANSWER: No, under the coverage you mention, the damage must come from "sudden, faulty and unusual" operation of your cooking unit.

"If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.
