

Hospital Women Issue Yearly Call For Canned Food

Women of the Nyssa community are being asked to can and freeze extra food in addition to that needed by their own families to help stock the shelves at the Malheur Memorial hospital, according to an announcement made this week by Mrs. Harold Brendle, president of the hospital auxiliary. The auxiliary yearly undertakes the project of getting the women in the area to contribute canned and frozen food to help reduce operating expenses of the community owned and operated hospital.

Mrs. Frank Morris and Mrs. Harry Miner, who have been appointed co-chairmen for the food project, will arrange to have the cans or frozen food picked up as soon as it has been prepared in the homes, if they are notified. However, those who wish to contribute the food may keep it until the yearly drive in October and it will be called for then.

Mrs. Brendle stated that inasmuch as no meetings of the hospital auxiliary are held during the summer it was felt advisable to ask for the canned food donations in advance of the canning and freezing season through the Journal, rather than to wait until fall when those who might wish to contribute the food would have to take it from their regular stocks.

Meetings of the auxiliary will commence again in September. They will meet the last Monday of each month at 2 p.m., through the winter months.

New Sugar Beet Seed Proves Success

OUTSTANDING SUCCESS in the use of the recently developed monogerm single germ sugar beet seed has been reported by Jed Lewis, general manager of the Amalgamated Sugar company in Nyssa.

The local company has 22 acres growing adjacent to their Nyssa plant. The new seed has eliminated the "stoop labor" re-

quired for thinning. Now one trip through the fields with a long hoe is sufficient to take care of the weeding.

Lewis said the germ was developed by Russian refugees, the Savitsky family with the cooperation of all sugar companies.

At the present time there are about 3000 acres planted in the

area and farmers generally are enthusiastic about the quality of the seed and the labor-saving features. Extension of the use of the seed throughout the district is planned as it becomes available.

The above photo shows Lewis inspecting the hardy plants at the firm's experimental acreage. —Journal Photos.

Wheat Farmers To Vote June 20 On 1958 Quotas

Voting places for the June 20 wheat marketing quota referendum were announced Monday by the Malheur county Agricultural Stabilization and Conservation committee.

For the Nyssa area, growers will vote at the city hall, and city halls at Ontario and Vale have been designated as polling places, while those in the south part of the county will cast ballots at the Arock Grange hall. Polls will be open from 8 a.m. until 7 p.m.

The ASC announced a slight change in eligibility for voting. In past wheat referendums, all growers in the commercial wheat area were eligible to vote if they had more than 15 acres of wheat for harvest on a farm. The new rule is that all persons are eligible if they share in the 1958 wheat crop from a farm in the commercial area on which wheat acreage to be harvested, plus any wheat acreage to be put in the wheat acreage reserve, will be more than 15 acres.

Two-thirds or more of the eligible voters must approve quotas in order to put them into effect on the 1958 crop.

If quotas are approved, farmers exceeding the farm allotment will be subject to a penalty of 45 percent of parity price on their excess wheat and the support price will be available to those complying at a national average of \$1.78 per bushel, which is 75 percent of parity.

If rejected, quotas will not be in effect, but allotments will be in effect and those complying will be eligible for support at 50 percent of parity, it was explained.

RODNEY BEUS HONORED AT SUNDAY TESTIMONIAL

A testimonial was given May 26 at the Nyssa stake house in honor of Rodney Beus, son of Mr. and Mrs. E. H. Beus, who left June 4 on a mission to California.

Approximately 250 attended the event. The program was under the direction of Rodger Anderson.

Mrs. Bill Horner and daughter of Harrisburg, Ore., are spending two weeks visiting at the home of her parents, Mr. and Mrs. Roy Knoedler, while her husband attends National Guard camp at Gowen Field.

Judith Roberts Has Series of Surgery

Judith Ann Roberts, nine-year-old daughter of Mr. and Mrs. Leon Roberts of Nyssa, underwent surgery on her right leg Monday in St. Luke's hospital in Boise. This was the fourth operation performed on her leg since she was stricken by polio in 1949.

According to Mrs. Roberts, Judith is scheduled for two additional surgeries during summer vacation. She may be able to be removed to her home Saturday to convalesce.

- ✓ "NUGREEN" is 45% urea nitrogen
- ✓ Resists leaching—locks itself to the soil
- ✓ Free-flowing shot form ideal for all types of broadcast spreaders
- ✓ "NUGREEN" speeds breakdown of crop residues... gives maximum crop response

Plow down "NUGREEN"; use it to side dress or top dress; mix it with regular pesticide sprays. Any way you use "NUGREEN", you'll be getting more for your money!

Selective Service Office Holiday

The selective service office in Ontario was closed all this week and regular office hours from 8:30 a. m. to 5:30 p. m., Mondays through Friday, will be resumed next Monday it was announced last Saturday.

No registrants were called for induction from Malheur county in June, but 14 registrants received calls to report for pre-induction physicals in June.

Mrs. Ruth Ingebritsen, clerk, reminded 18-year-olds that all boys must register with the local board on their 18th birthday or within five days thereafter. A verification of birth date is necessary when reporting.

Mr. and Mrs. Orin Sumner were visited on Saturday by a nephew of Mr. Sumner's, William Bennett, Carlin, Nev., who was on his way to McCall.

Arnold W. Strawn, son of Mr. and Mrs. Lester H. Strawn, route 1, Nyssa, is scheduled to complete recruit training June 13 at the marine corps recruit depot, San Diego, Calif.

The 11-week course includes instruction in all basic military subjects and the firing of all basic infantry weapons.

Upon completion of training new Marines are assigned to a unit for further infantry training, or to one of the many Marine corps schools.

Number One
Song In Your
Shower
Parade

Right there when a man needs it... HOT water, heated fast the electric way. And with three-times-faster Quick Recovery water heating, there'll be plenty left over for dishes and laundry. Your automatic electric water heater is the key to your lowest electric rates. Quick Recovery or standard model, it entitles you to 700 BEST BARGAIN kilowatt-hours at only 9/10 of a cent each (after you've used your first 200 KWH). Since the water heater ordinarily uses only a portion of this bargain service, the balance can be used for other electric conveniences... a dryer, dishwasher or freezer. So, sing a song of savings... "HOT WATERS GREAT... and it lowers your rate!"
