## Ford wins the battle of the builds

• Sure! Many people buy Fords because of their long, low, whistle-collecting looks. Do you blame them? But beauty alone isn't enough to earn for a car the No. 1 spot in America's heart. And that's just what Ford has earned. The real secrets of Ford's success are the extra values that go into building a Ford. Let's look at a few of these features. Ford shares them only with a select number of America's most expensive cars. But you get them at low Ford prices.

1. Only Ford in its field offers a frame design that lets you ride within the frame side members for greater roominess, more smoothness and increased safety.
2. Only Ford in its field gives you a modern V-8 engine with rigid, deep-block design for smoother, quieter, longer-lived operation.
3. Only Ford in its field offers automatic variable-rate rear springs that automatically adjust to give a smoother ride no matter how rough the road conditions.
4. Only Ford in its field offers new swept-back ball-joint front suspension that "rolls with the punch" on rough, bumpy roads.

5. Only Ford in its field offers as many as five strengthening roof cross members for a more rigid roof... greater quiet and safety.
6. Only Ford offers such a savingful car. A Ford Six beat all other cars in the 1957 Mobilgas Economy Run in the miles-per-gallon department.
7. Only Ford in its field offers a frame with 3 tubular cross members. There are 5 cross members in all... enabling the frame to withstand stress from all directions.

8. Only Ford, among all makes, electronically balances every V-8 engine while it's operating under its own power.
9. Only Ford in its field offers so much soundproofing for a quieter ride under all road and weather conditions.
10. Only Ford in its field offers such a well sealed body for greater freedom from dust and weather wherever you travel.
11. Only Ford in its field offers rear door assist springs and two-position front door checks for easier entrance and exit.
