Just a Hic Idea

Someone is going to make a million when he invents a cheap non-breakable bottle as a container for the cheap wine consumed. We're sure that motorists would gladly subsidize such an inventor rather than continue with cut tires from wine bottles in the streets and alleys.

Letters to Editor

Signed letters to the editor are welcomed and will be printed if they do not contain comments of a libelous nature or attacks on religious and racial groups. Publication of the letters does not signify the agreement of this newspaper with opinions expressed.

Nyssa, Oregon
Oct. 4, 1957

Mr. Alters,
Dear Sir:

Even though you went to the extreme, in comment, concerning my letter expressing my opinion about both man and wife holding jobs while there is condition of unemployment and in many cases neither a man or his wife can find work, you state that you are "Never a believer in the indispensable man."

A lumberjack's wife might be able to get work (when he is out of job) if other wives of men who have work did not hold jobs, too. Dictation or woman's ready-to-wear are not the only fields of employment.

You exposed your lack of concern and respect for "small business" when you and the Dairy Breeder's representative parked your two cars, blocking my driveway, for over an hour; I doubt if you would have done the same at a "big business" place.

My subscription to your paper (paid) will expire Oct. 21, 1957. I do not expect to renew same.

Sincerely,
Walter Burdette

(Editor's Note: The Alters' Ford must have an identical twin.)
